Summary

Driven Software Engineer skilled in **Java, Web Development, and Salesforce** (Sales Cloud, LWC, Visualforce, Apex). Experienced in **Salesforce–SAP integration** and custom application development. Strong in **problem-solving, collaboration, and delivering scalable business solutions** in dynamic tech environments.

Education

- **CDAC, PUNE**   **pune**, India
  Post Graduation Diploma- Advanced Computing ;   *Aug 2024*
  *Courses: **Cpp , Web Devlopment , Core Java ,** Data Structures**, ASP .NET** , Databases , Software methology , Ad java .*
- **Deogiri Institute of engineering and management studies**   **Aurangabad**, India
  Bachelor of Technology - Electronic And Telecommunication ; CGPA 8.29   *June 2023*
- **Government polytechnic Aurangabad**   **Aurangabad**, India
  Diploma - Electronic And Telecommunication ; Percentage 69 %   *Des 2020*

Skills Summary

- **Language** :   Apex , Java , MySql
- **framework** :   Spring Boot , React js , LWC , VisualForce pages
- **Tools**:   Postman , Git ,DBMS , Vs Code .
- **Platforms**:   Github , AWS , MVC .
- **Soft Skills**:   Leadership, Team Work, Time Management , Communication

Work Experience

Salesforce Developer   **Pune**
Digi Cloud Solutions Pvt ltd   Jan 25 – Present

Worked as a Salesforce Developer on a Sales Cloud project, developing and customizing features using Visualforce, Apex, and Lightning Web Components (LWC). Built and deployed a public-facing Salesforce site to enhance customer engagement and streamline sales processes.

Java developer intern   **Aurangabad**
Fuel – Capgemini   Jan 23 – May 23

Gained a strong foundation in Core Java, including OOP concepts, Collections Framework, and JDBC for database connectivity. Developed a project demonstrating end-to-end functionality using Java and database integration, showcasing problem-solving and technical implementation skills.

Projects

Title: Manufacturing Industry – Salesforce Sales Cloud Implementation   **Duration:** 4/5 Months
Platform: Salesforce Sales Cloud, Apex, LWC, Visualforce, Flows, Integration (Salesforce–SAP), REST API, Data Loader, SOQL, SOSL

Description:
This project focused on implementing **Sales Cloud** for a manufacturing industry client to streamline their **end-to-end sales process**. The solution included custom development for **Leads, Accounts, Contacts, Opportunities, Quotes, and Orders** modules, along with a **custom sales process** to manage complete order lifecycle. Integrated **Salesforce with SAP** to enable seamless data synchronization for orders and inventory. Developed **custom modules, Visualforce pages, and Lightning Web Components (LWC)** to enhance user experience and automate business workflows, improving sales efficiency and visibility.

Project Repository: *(Private Salesforce Org – Internal Project)*

Title: SAP to Salesforce Integration – Manufacturing Industry   **Duration:** 2 Months

Platform: Salesforce Sales Cloud, Apex, REST API, SAP, Integration Middleware (API Gateway / MuleSoft / REST Endpoints)

Description:
Developed and implemented a **bi-directional integration** between **SAP and Salesforce** for a manufacturing client to enable real-time data exchange across **four endpoints** (Customer, Product, Order, and Inventory). The integration streamlined the sales process by synchronizing master and transactional data, ensuring consistency between SAP and Salesforce. Built **custom Apex integration services** and handled data transformation, authentication (OAuth/JWT), and error logging for seamless connectivity and reliability.

Project Repository: *(Internal Integration Project – Private)*

Title : Find My Lawyer   **Duration :2** Month

Platform : J2EE ,JPA ,Hibernate ,Mysql ,BootStrape ,JWT ,React ,MVC .

Description : Clients often face difficulties finding lawyers who can solve their specific legal problems. To address this issue, we have developed an innovative platform that connects clients with the best lawyers tailored to their needs. Our platform the search process by allowing clients to filter and find lawyers based on their specific legal requirements and preferences. Additionally, it facilitates seamless communication between clients and lawyers, ensuring that clients can easily discuss their cases and receive the legal assistance they need. Our goal is to make the process of finding and working with a lawyer as efficient and stress-free as possible .
